

**table1.1 Line to ground capacitor code**

<b>Code</b>	<b>Leakage Current (Input 125/250V 60Hz)</b>	<b>Line to ground capacitor (nominal value)</b>
<b>000</b>	5 $\mu$ A/ 10 $\mu$ A max	Not Provided
<b>101</b>	12.5 $\mu$ A/ 25 $\mu$ A max	100pF
<b>221</b>	25 $\mu$ A/ 50 $\mu$ A max	220pF
<b>331</b>	37.5 $\mu$ A/ 75 $\mu$ A max	330pF
<b>471</b>	50 $\mu$ A/100 $\mu$ A max	470pF

**\* When the line to ground capacitor code is different, the attenuation characteristic is different.**
