

table1.1 Line to ground capacitor code

Code	Leakage Current (Input Y-connection 250V / 500V 60Hz)	Line to ground capacitor (nominal value)		
		CY1	CY2	CY3
665	20mA/40mA max	$2.2\mu\text{F}$	$2.2\mu\text{F}$	$2.2\mu\text{F}$

*** Please contact us about low leakage current type (Change to low grounding capacitor) and further high attenuation type (Change to high permeability choke coil).**
