

**table1.1 Line to ground capacitor code**

<b>Code</b>	<b>Leakage Current (Input 125/250V 60Hz)</b>	<b>Line to ground capacitor (nominal value)</b>
<b>681</b>	75.5 $\mu$ A/150 $\mu$ A max	680pF
<b>102</b>	0.13mA/0.25mA max	1000pF
<b>222</b>	0.25mA/0.5 mA max	2200pF
<b>332</b>	0.38mA/0.75mA max	3300pF
<b>472</b>	0.5 mA/1.0 mA max	4700pF

**\* When the line to ground capacitor code is different, the attenuation characteristic is different.**
